WP305B BLACK

WP305I IVORY / BLACK

Designed to coordinate with our women's Expedition jacket, this style can be worn as stand-alone riding pants or as full over pants. It offers our unique TWO LAYER SYSTEM DESIGN for enhanced function and multi-season versatility.

- Outer shell constructed in 500 and 2000 denier Cordura® fabric.
- MVS Mega Vent Panel system.
- Rain pants can be worn over or under the outer shell.
- Full side leg zippers extend to waistband.
- Removable and adjustable height CE approved Motion Flex armor at knees.
- Cool mesh airflow lining.
- Removable EVA compression foam at hips.
- Custom Fit detailing at waist and bottom hem.
- 3M Scotchlite® reflective piping from waist to hem.
- Relaxed tailored fit.
- Four storage pockets.
- 8" connecting zipper for jackets.
- Washable leather reinforcement panels from inside thigh to hem bottom.
- Comfort stretch knit panels at back of knees.
- Bottom hem cut to fit over street or off road boots.

LAYER ONE consists of a rugged 500 and 2000 D Cordura® shell. Olympia's "Mega Vent Panel System" allows these pants to transition from solid body to adjustable airflow construction in seconds. Zip down front thigh vent panels fold neatly into self-storage pockets. Standing, boot on entry is a snap as side leg zippers extend all the way to the waistband. 3 tier adjustable knee armor positions, stretch waist panels and Olympia's EZ-hem bottom detail allows riders to achieve a customized fit. Two front zipper pockets and two rear stash pockets offer extra storage for personal items. Washable leather reinforcement panels run from the inner thigh to the bottom hem.

LAYER TWO offers waterproof/breathable AquaRes™ laminated rain pants that are sized to fit over or under the main outer shell. Generous leg openings with an adjustable Velcro closure system makes standing boot entry a breeze. An elasticized waist plus side waist slide buckles offer a comfortable and adjustable fit.

OVER OR UNDER RAIN PANTS

Sturdy waterproof breathable rip stop nylon shell, elasticized waist. Generous leg openings with bottom Velcro closures makes standing boot on entry and exit a breeze. This Hi-Viz/black color combo ships with all outer shell colorways.

MEGA VENT PANEL SYSTEM - PANTS

Waist to knee Mega Vent Panel System transitions these pants from solid body to adjustable airflow construction in seconds. All vent panels are permanently attached to the shell and fold neatly into self-storage pockets for added convenience and easy access.
