

RICHMOND

MEN'S JACKET

WATERPROOF

MJ508 SIZES: S - 4XL **USA** \$269⁹⁹ **CAN** \$344⁹⁹

MJ508H GREY/BLACK

MJ508B BLACK/BLACK

MJ508S SILVER/BLACK

MJ508Z NEON YELLOW/BLACK

A waterproof exterior combined with exceptional airflow allows the Richmond jacket to function extremely well over a wide range of temperatures and varying weather conditions. Our Advanced Venting System cuts through the jacket's outer shell and interior membrane to create direct airflow to a rider's body. Six watertight zippers with fold-back vent covers are located at the shoulders and upper arms plus side and back body torso panels. This enhanced venting system delivers an unbeatable combination of adjustable airflow and protection from the elements.

- Outer Shell constructed in a combination of 600 D EVO THREAD™ poly fabric and 1000 D ballistic poly panels.
- Six vent adjustable Airflow Ventilation System.
- Velcro lock down straps at shoulder vents to maximize airflow.
- Waterproof/breathable Reissa® membrane.
- Cool mesh airflow lining.
- Double storm placket front closure.
- Removable CE Motion Flex armor at elbows and shoulders.
- Removable CE approved Motion Flex articulated back protector.
- Custom fit detailing at collar, cuffs, elbows and waist.
- Full circumference neoprene collar insert.
- Reflective heat weld detailing at front, sides and back.
- Seven exterior zipper pockets and two interior stash pockets.
- Stow away under helmet hood with 360 neck gator.
- Full sleeve zip out INSULEX™ thermal layer with two storage pockets.
- Quality YKK zippers.

Outer Shell detailing consists of a rugged exterior cut in a combination of 600 D poly EVO THREAD™ fabric and 1000 D ballistic poly panels located at the elbows and shoulders for exceptional abrasion resistance. A waterproof / breathable seam sealed Reissa® membrane is concealed under the cool mesh lining to tackle wet weather rides. Six exterior zipper pockets, two interior stash pockets and an oversized waterproof back pocket offer plenty of storage for personal items. Additional features include an under helmet hood with a rubberized neck gator concealed in the back yoke, plus reflective heat weld detailing located at the front, back and sides for added visibility in low light situations.

Removable thermal layer detailing consists of a full sleeve INSULEX™ thermal liner equipped with two large interior storage pockets. This cozy thermal layer is both lightweight, packable and enhances multi-season riding comfort.

ADVANCED VENTING SYSTEM

Olympia's AVS venting system offers direct airflow to a rider's body via watertight zipper vents that cut through the outer shell and interior membrane, creating direct airflow to a rider's body.

STOW AWAY HOOD WITH 360 NECK GATOR

A stow away under helmet hood with rubberized neck gator provides full circumference waterproof protection.

ZIP OUT FULL SLEEVE THERMAL LAYER

This handy INSULEX™ thermal layer is lightweight and packable to ensure multi-season riding comfort.
