Our X Moto 2 jacket delivers ultimate performance when navigating through harsh weather conditions and constantly changing weather patterns. Our exclusive THREE LAYER SYSTEM DESIGN and Mega Vent Panel System make the X Moto 2 the most versatile adventure touring jacket on the planet.

- Outer Shell constructed in 500 and 2000 denier Cordura® fabric.
- MVS Mega Vent Panel System at chest, back and arms.
- Removable CE approved Motion Flex armor at elbows and shoulders.
- Removable CE approved Motion Flex articulated back protector.
- Cool mesh airflow lining.
- Custom Fit detailing at collar, cuffs, elbows and waist.
- Comfort neoprene framed collar.
- 3M Scotchlite® reflective detailing at front, sides and back.
- 8" connecting zipper for pants.
- Eight storage pockets, plus oversized waterproof back storage pocket.
- Integrated zip off back pack includes 2 liter hydration bladder.
- Over or Under rain jacket with removable insulation layer.
- Quality YKK Zippers.

LAYER ONE consists of a rugged 500 and 2000 D Cordura® shell that's equipped with our exclusive Mega Vent Panel System. This system allows the jacket to transition from solid body to adjustable airflow construction in seconds. Key features include a zip off integrated backpack with a 2 liter hydration bladder, six external storage pockets, two interior stash pockets plus an oversized waterproof back storage pocket, a cushy neoprene framed collar, side waist adjuster straps and reflective detailing at the chest, back and side arms for increased visibility in low light situations.

LAYER TWO consists of a fully functional AquaRes™ laminated rain jacket that can be worn over or under the main outer shell, as weather conditions dictate. A stow away hood with a rubberized neck gator conceals neatly inside the collar and fits comfortably under a helmet. The neck gator provides full circumference waterproof protection as needed. Additional features include 3M reflective piping at the front, sides and back, plus side entry pockets and an interior stash pocket for stowing personal items. Need to lighten your load, no worries, as this jacket pulls double duty as great looking stand-alone sportswear.

LAYER THREE consists of a removable full sleeve thermal layer with authentic Thermolite® insulation and an interior storage pocket. This layer can be zipped into the main outer shell or the rain jacket shell, as needed. This handy zip out feature ensures multi-season riding comfort through a wide range of temperatures and weather conditions.

## **TWO STAGE - OVER OR UNDER RAIN JACKET WITH STOW AWAY HOOD AND 360 NECK GATOR**

Sturdy waterproof, breathable AquaRes™ laminated rip stop nylon shell, double storm flap front closure, adjustable cuffs, arms and waist, 3M reflective detailing at front and back. Removable Thermolite® insulation layer can be zipped into the main outer shell or rain jacket shell as needed. A stow away under helmet hood with rubberized neck gator provides full circumference waterproof protection.

**CORDURA** FABRIC **CE** **THERMOLITE** **3M Scotchlite** Reflective Material **AquaRes** **YKK**

## **ZIP OUT FULL SLEEVE THERMAL LAYER**

This handy thermal layer can be zipped directly into the main outer shell or the rain jacket shell to ensure multi-season riding comfort.

## **ZIP OFF INTEGRATED BACK PACK INCLUDES A 2 LITER HYDRATION BLADDER**

This handy zip off back pack can be used for storage of personal items or in conjunction with the 2 liter hydration bladder that comes as standard issue. This pack also includes an integrated shoulder harness system that helps to properly position the pack on your back when weighted down with liquids or personal items.

## **MEGA VENT PANEL SYSTEM**

Front, back and underarm Mega Vent Panel System transitions this jacket from solid body to adjustable airflow construction in seconds. All vent panels are permanently attached to the shells and fold neatly into self-storage pockets for added convenience and easy access.

## **BACK VIEW OF JACKET AND BACK PACK - MEGA VENT PANELS TUCKED AWAY**

The integrated back pack includes 3M reflective piping and heat weld reflective detailing for enhanced visibility in low light situations.

## **BACK VIEW OF JACKET WITH BACK PACK DETAIL REMOVED**

To remove the back pack, simply unzip the two attachment zippers located at the left and right sides of the pack and slip the harness straps over your shoulders. The jackets out shell also features drop back detailing plus an oversized waterproof zippered back storage pocket.
